DETAILED DESCRIPTION OF THE EVENTS

Talk TU 03.10.

This evening Victor will introduce himself and his spiritual healing work. You will have the opportunity to ask questions and Victor will share some touching experiences he has had in his almost lifetime as a Spiritual Healer.

Healing Meditation TH 05.10.

Workshop SA – SU 07.10. "What are the hurdles blocking my abundance and flow of my life?"

This workshop consists of 2 parts. WS on Sunday is for Victor's students only.

The first part is open to everyone (i.e. students of Victor and all those who feel attracted by this seminar content. A prerequisite for the participation of new people in this special workshop is a personal healing of Victor on Friday 06.10. (Please contact Monika Ussner / 0664 1246069 make an appointment)

The first part explains why there are people for whom life is easy (everything comes to them, they have enough of everything) and others work hard and yet there is a lack of everything.

Questions like: Why can't I reach my goals? Why is the money running out in my hands? – etc. are constantly circling in their thoughts.

You feel sad, frustrated, discouraged, angry, resigned, heavy, tired, desperate and can't find a solution or a way out.

Victor explains why this is so and with God's grace, will do many cleansing/healings to release these blockages and bring you back into the flow of life and abundance on all levels and he will show you how to be positive can align

Healing Meditation TH 19.10.

Workshop SU 22.10. Healing of the Blood Line (purification from our Ancestral -chains)

Many of us have unwanted, negative human tendencies, behavior patterns, and defects in the body, mind, and spirit that were passed down our bloodlines from our ancestors. This healing workshop will change your life forever by freeing you from all those problems and negative burdens of your ancestors and freeing you and your future generations from carrying them.

At the same time, through our supporting prayers and the mercy of God, many departed souls from our bloodline will find their way to the mercy gate of liberation. This is an incredibly powerful and touching experience that we are allowed to have on this day.

Talk WE 22.11.
